

**CZECH MEDICAL ASSOCIATION
OF J. E. PURKYNĚ**
Czech Society of General Practice

to
WONCA EUROPE committee members
WONCA EUROPE member organizations

28 February 2022

Czech Society of General Practice Czech Medical Association of Jan Evangelista Purkyně feels the need to respond to the unfortunate development of the situation in Ukraine also as a professional organization and member of WONCA.

Historically, we have great sympathy for the Ukrainian people, whom we consider friends.

We are ready to contribute to the support of refugees from Ukraine. We are currently looking for a way to help Ukraine, through charitable organizations and through our colleagues in Ukraine. The Czech Society of GP is going to send a significant financial donation to Ukraine. At the same time, the GP Society will use its funds to pay general practitioners for the care of Ukrainian refugees until the state takes appropriate measures.

We regret the situation in which our colleagues, general practitioners in Russia, have found themselves. We would like to call on them through WONCA EUROPE to use their influence to contribute to the end of the war.
